

# Grey Lundberg / CMI Homes, Inc. (House #5 The Urban Lodge) Wins National Award

On Tuesday, February 6th at Sea World's "Ports of Call", Grey Lundberg / CMI Homes, Inc. received the **"2006 Best in American Living Award"** for "The Built Green Home at Suncadia" project through the NAHB Design Committee and Professional Builder Magazine. Their project was selected by a panel of judges out of thousands of projects nationwide.

The awards ceremony was great and Grey Lundberg / CMI Homes, Inc. was surprised to win the **"Best of the Pacific Northwest Region"** award. There were approximately 75 winners across the country for the 2006 Best in American Living Award which includes developments, multi-family, high density, spec's, customs, kitchens, etc. However, there were only 10 regional winners-which CMI was one. Each of the 10 winners were called on stage to receive the special award and say a few words. This is quite the honor for Grey Lundberg / CMI Homes, Inc. and they wouldn't have been able to win this award without the help and dedication of The Built Green Home at Suncadia's Steering Committee and Public Relations team.

Grey Lundberg, founder of **Grey Lundberg / CMI Homes, Inc.**, graduated from the University of Washington in 1983 with a degree in building construction, starting his own company soon afterward. With the motto "What You Can't See Matters," Grey Lundberg has built an outstanding reputation for the finest quality custom homes and remodels, and has become a recognized leader in the Built Green construction industry, having won national awards for outstanding achievement in high quality building and innovative green building techniques.

Committed to continuous research and analyzation of the latest technologies, Grey Lundberg / CMI Homes, Inc. incorporates products, systems and techniques which result in energy efficient homes with superior indoor air quality, less moisture intrusion, reduced impact on the environment and the ability to withstand all local climate conditions.

As a first time participant in the Seattle Street of Dreams, Grey Lundberg / CMI Homes, Inc. is excited about showing the public the "dream home" of the future; which is functional, sustainable, efficient and healthier for the owners. *The Urban Lodge*, built using ecologically responsible construction practices, boasts low operating costs and quality which will last for generations, making it "achievable" for a larger group of discriminating buyers.
