

2007 Street Opens To Public's Rave Reviews

July 14, 2007

La Belle Fleur

The five 2007 Seattle Street of Dreams show homes, priced from \$1.765 to \$1.950 Million went on public display Saturday, July 14th and we've been hearing about it! *"With virtually universal praise for the Built Green® features and the modified price structure, we think we've hit on something*

that appeals to a wide audience, and still provides an education on how elegant homes can be built responsibly." stated John Heller, President of Seattle Street of

Dreams, Inc.

"These homes are all beautiful, and the natural setting with over 75% open space just adds to the serenity" Heller added.
